CATARH IS CURABLE

Successful Experiments in Abating and
Curing This Disease.

Catarh is an entirely unnecessary
disease and should not be tolerated for
a single day now that Hyomei is so
generally known and has made so many
cures in Barre and other towns.

Until comparatively recent times cat-
arh was thought to be a blood disease,
and stomach doing the only treatment.
Modern science finally disproved this
idea of the cause of catarh, and found
that it was a germ disease, and after
many experiments the remedy was de-
cided to be Hyomei.

Hyomei medicates the air you breathe;
it kills the catarrhal germ; it heals the
smelling and raw membranes of the
passages in the nose and throat; it cures
all catarrhal troubles.

As there is life and health in the air
in the mountain-tops where the pine
forests give off their fragrant and heal-
ing balsams, so there is life and health
in breathing Hyomei. There is no need
of suffering from catarh if the simple
and natural treatment of Hyomei is used.

So sure is this prescription to cure
even the worst cases of catarh that
Rickett & Wells of the Red Cross Phar-
macy sell it under an absolute guarantee
to refund the money if it does not do
all that is claimed for it.

THE JOKE.

(To one who knows how to take it.)
Not that you laugh like one who under-
stands
(And might have said the thing her-
self, dear Mabel.)
When, grown too restive for confining
hands,
I launch some bark of humor on the
sea.

That is Belinda's way, but not the best
to make a flattered clown inflate his
chest.

Others there are (Corinna is a case)
Who rack their lovely foreheads to a
wrinkle,
And probing my design with feverish
face

Sound after anxious pause their argu-
ment tinkle
And melt in grateful gurgles over what
They take to be the meaning, though
It's not.

Then there is Emily, of Gothic mould,
To Fanny's caviar a tasteless vandal.
Who, turning on her neighbor with a
cold
Set stare, as if she sought to hush a
scandal.

Hints at the sad effect of sudden heat
On heads impaired by masculine conceit.

But you, my Mabel, you appear to know
What arts ignite the sterner sex's pas-
sions;
You (where your sisters fail me), soft
and low,
Forgetful of your fast congealing ra-
pacity

Forgetful of some nuns' neighbor's
chat,
Ask how I come to think of things like
that.

Respectful wonder prompts you to in-
quire
The way it grew, the modus operandi.
That is the poet's chance, the trick to
fire

His horrible heart—'tis then that with a
bland eye
Engaging half the board, he renders
plain
The mechanism of a master brain.

—Punch.

Out of Sight.
"Out of sight, out of mind," is an old
saying which applies with special force
to a sore, burn or wound that has
been treated with Bucklen's Arnica Salve. It's
out of sight, out of mind and out of
existence. Piles, too, and chilblains dis-
appear under its healing influence. Guar-
anteed by the Red Cross Pharmacy. 25c.

ABOUT THE STATE.

Items of Interest Gleaned From Our
Exchanges.

After working over 45 years in the
shops of the Rutland Railroad company,
J. D. Allen has tendered his resignation
and left with his wife and daughter for
California, where they will reside with
their sons, who are fruit raisers. Mr. Al-
len is 73 years old.

Mrs. Emma Averill Coon of Richford
recently walked from her home to Aver-
ill's Corner, Franklin, a distance of 20
miles, in five hours, and returned the
next day in about the same time. She
is 60 years old and says she feels no fa-
tigue after such feats of pedestrianism.

Nineteen years ago Monday, says a
Morrisonville correspondent, the ground
was frozen hard enough to bear up a
team and the next day there was a fall
of three inches of snow. Not so bad
this year, but Monday evening at the
time the mail train arrived at the station
platform, it was well whitened with
snow.

A gang of 15 Italians has been put
at work on the streets of Bellows Falls
in place of the men who recently went
on a strike. Hundreds of people, includ-
ing most of the strikers, watched them
at work on their first appearance. An
outsider introduced a resolution at a
meeting of the town, calling them out
on a sympathetic strike, but he was im-
mediately ejected from the room and no
further attention was paid his resolution.

Among those who took in the excu-
sion to New York last week from Stowe
was Leon Butt, H. H. Moore, who re-
turned on Monday with a bride, having
been married during his absence to Miss
Maidle Town of New Haven, Conn., re-
cently of Jamestown, Va., the daughter
of Mr. and Mrs. Wilbur Town, formerly
of Stowe. Mr. and Mrs. Butt will carry
on the farm recently purchased of
Mr. Butt's father, H. A. Butt.

At a meeting of the shareholders of
the E. & T. Fairbanks Co., limited, at
Sherbrooke these directors were elected:
C. W. Gate of Sherbrooke; J. C. Clark,
P. F. Hazen, C. H. Turner, E. R. Jen-
kins, E. H. Brooks, H. N. Turner, all
of St. Johnsbury. The board organized
by electing H. N. Turner, president; C.
H. Turner, vice-president; J. C. Clark,
treasurer; P. F. Hazen, secretary. The
company will start at once to erect a
scale plant in Sherbrooke.

The United States government has let
a contract to the United States steel
corporation for transmission towers,
which are to be utilized for wireless tele-
graph service in Alaska. The govern-
ment intends to have a chain of
towers erected along the Atlantic and
Pacific coasts and on the Gulf of Mexico.
The towers will be 175 feet high.

There was a time when the lad boy
ran away from school, and there may be
boys today who practice the same thing,
but Troy, Pa., has a new kind of truant.
A family in that town objected to vaca-
tion, and refused to have their boy
vaccinated, with the result that he was
excluded from school. The boy ran
away, went to a doctor, had himself vac-
cinated, and with his certificate in his
pocket went to school and asked for ad-
mission.

It is not altogether safe to travel in
the southern states after spending the
summer, as many girls do, in the open
air at the seashore. One such woman
traveling on the Norfolk & Western rail-
road the other day, was forced to ride
in the Jim Crow car for negroes. She
was very much annoyed, to be sure, but
we should suppose indignation would
have given her the color of her cheeks
more of an Indian than an African.
She has sued the railroad company for
\$1,000 damages, which, if awarded her,
may cover her vacation expenses.—Con-
gregationalist.

At the beginning of the year 1906 the
total length of the standard gauge rail-
roads in Germany aggregated 34,124
English miles, an increase of 21.3 per
cent. over the mileage length of ten
years ago. The area of the German em-
pire is 357,820 square miles, and it con-
tains a population of 62,125,000. For
every 100,000 inhabitants this would
give 6.1 miles length of trackage. The
receipts from passenger traffic for the
year 1905 amounted to \$163,773,750,
exceeding by 63.4 per cent. those of the
year 1895. The passenger and baggage
traffic contributed 28.10 per cent. to the
total receipts.

TO REMOVE RESTRICTION
ON RUSSIAN EMIGRATION.
Minister of Commerce Will Submit New
Law to Duma.

St. Petersburg, Oct. 3.—The minister
of commerce (M. Filosevich) has drawn
up a project of law to be introduced in
the new parliament when it assembles
removing the restriction on emigration.
The project is now being discussed by
representatives of various departments,
but so far as is known the ministry of
the interior is the only branch of the
government opposing the proposed law.

REAL ESTATE FOR SALE.
FOR SALE—25-acre farm, located between
Barre and Williamstown, will be sold with
the place and buildings. There are 15 cows,
5 pigs, all the hay, corn, etc., potatoes, 1
chicken, all farming tools, household furniture,
etc. The whole property can be bought
for \$2,500. Better look up at once as the
owner is just ready for property. To be
bought quickly. Inquire of the D. A. Perry Real
Estate Agency.

FOR SALE IN THE F. B. CATE REAL ESTATE
AGENCY, BOLSTER BLOCK, BARRE, VT.
Cottage house, seven rooms, at 94 Franklin
street, corner of Beacon. The lot is 50 feet
on Franklin street and 120 feet on Beacon
street. The house is nearly new, has gas,
electric lights, gas, furnace, hot water con-
nection, connected with the sewer. Every-
thing in first-class repair. The price is very
reasonable.

FOR SALE—Here is the farm you have been
looking for. It is a 10-acre city plot
office. This farm will keep 30 cows and team.
Hay all cut with machine. Good graded ap-
proach. The house is nearly new, has gas,
with running water and hot water. Reason
for selling is the owner is going away. This
is the only farm of its size and value this dis-
tance from the city proper that is on the mar-
ket today. Will sell stock, tools and produce
with farm if preferred. Don't be late. Call
at the above agency for price and terms.
Tel. 150-2.

A large storehouse for sale or rent. 1647

FOR SALE—Six-room house, all modern
conveniences. Also piano. Apply to George
Williamson, 1 Bank street, Barre.

FARM FOR SALE—Situating 1.2 mile from
Plainfield village, consisting of 85 acres or ex-
cellent land, well divided into tillage, pasture
and woodland. Good buildings. Very level
smooth, no stones. Very level river farm.
Also farming tools and produce raised on the
farm. The price is very reasonable. To be
bought quickly. Inquire of the D. A. Perry Real
Estate Agency.

UNHAPPINESS DISPELLED.

Men and Women Unanimous About It.

Many women weep and wail and refuse
to be comforted because their eyes mag-
nificent trousers have become thin and
tattered. Many men incline to profanity
because the flies bite through the thin
tights on their craniums. It will be good
news to the miserable of both sexes to
learn that Newbro's Herpicide has been
placed upon the market. This is the new
scalp germicide and antiseptic that acts
by destroying the germ or microbe that
is the underlying cause of all hair dis-
struction. Herpicide is a new prepara-
tion, made after a new formula on an
entirely new principle. Anyone who has
tried it will testify as to its worth. Try
it yourself and be convinced. Sold by
leading druggists. Send 10c in stamp
for sample to The Herpicide Co., De-
troit, Mich. or to your nearest druggist.

Two sizes—20 cents and 50c.
E. A. Drown, Special Agent.

GLEANINGS AND GOSSIP.

John Bull figures out that his country
has been successful in 82 per cent. of
the battles in which it has engaged.

Records of false weights and measures
used in New York City show that the
people are cheated out of \$15,000,000 a
year by their use.

The Chilian government has purchased
35 heavy American locomotives to be
used on the heavier grades of the state
railway. They are found to give bet-
ter service than the English or German
engines.

At the beginning of the year the num-
ber of people living under statutory pro-
hibition in Maine, North Dakota and
Kansas was only 2,500,000. By the end
of the year Tennessee and Georgia will
nearly have trebled that number.

Comparative tests of electric and
pneumatic drills have resulted over-
whelmingly in favor of the latter. This
is a very severe service, and the electric
drill does not seem to stand up under it,
and time is constantly lost in making
repairs to the machinery.

The meat bill of a wealthy Newport
summer colonist averages nearly \$1,000
a month, and has been known to exceed
\$2,000. The expenses of entertainment
may reach \$50,000 a season. The enter-
tainer's bill always runs
